

IILM UNIVERSITY, GREATER NOIDA

Software Engineering and Web Development

Paramjibi Sutar | Enrollment: CS-2341738 | B.Tech CSE | 7th
Semester

Internship Organisation: **DIGISAMAKSH Private Limited**

School of Computer Science and Engineering

INTERNSHIP OVERVIEW

Internship Overview

Organisation

DIGISAMAKSH Private Limited

Department

Technology & Development

Designation

Software Engineering Intern

Duration

01 June 2026 – 15 August 2026

Focus Area

Backend Development & Artificial Intelligence

Environment

Professional Software Development

About the Organisation

DIGISAMAKSH Private Limited is a multi-domain technology and consultancy organisation. The internship was completed within the **Technology & Development Department**, contributing to live software engineering initiatives.

Software Development

Data Analytics

Digital Marketing

E-commerce Solutions

Human Resources Consulting

Strategic Consultancy

OBJECTIVES

Internship Objectives

Practical Experience

Apply software engineering principles in a professional setting

AI Exposure

Gain hands-on experience with AI-based development workflows

Debugging & Testing

Improve code quality through systematic testing practices

Backend Development

Strengthen skills in C# and .NET backend systems

Database Management

Understand PostgreSQL database design and queries

Teamwork & Problem-Solving

Develop collaborative and analytical professional skills

Technologies Used

C#

Primary backend programming language for application logic and system development

.NET

Framework for building robust, scalable backend services and APIs

PostgreSQL

Relational database management for structured data storage and retrieval

Artificial Intelligence

AI-based development tools and intelligent system integration

Generalised System Architecture

Architecture Notes

This diagram represents a **generalised academic model** of a typical backend + AI system architecture. It is used solely for educational illustration purposes.

NDA Notice: This diagram does not represent the organisation's actual internal architecture or disclose any proprietary implementation details. All representations are at a conceptual academic level only.

Development Methodology

Requirement Understanding

Planning & Analysis

Backend Development

AI Development

Database Management

Testing & Debugging

Review & Improvement

An iterative, structured approach was followed throughout the internship to ensure systematic progress across all development phases.

RESPONSIBILITIES

Roles & Responsibilities

Technical Responsibilities

- Backend development support using C# and .NET
- AI-related development activities
- Database design and query tasks in PostgreSQL
- Coding, debugging, and software testing
- System maintenance and technical documentation

Professional Responsibilities

- Research on emerging technologies and tools
- Team collaboration and cross-functional communication
- Problem-solving and continuous improvement
- Adherence to professional development practices
- Contributing to code reviews and documentation

OUTCOMES

Key Learning Outcomes

Technical Skills

- C# and .NET backend development
- PostgreSQL database management
- AI-based development workflows
- Software testing and debugging
- API and system integration concepts

Professional Skills

- Problem-solving and analytical thinking
- Team collaboration and communication
- Technical documentation practices
- Adaptability in a professional environment
- Understanding of software development lifecycle

CONCLUSION

Conclusion

The internship at **DIGISAMAKSH Private Limited** provided valuable practical exposure to software engineering, backend development, Artificial Intelligence, and database management in a professional environment.

Applied academic knowledge in a real-world professional setting

Gained hands-on experience with C#, .NET, and PostgreSQL

Developed understanding of professional software development practices

Strengthened teamwork, communication, and documentation skills

THANK YOU

Paramjibi Sutar | B.Tech CSE | 7th Semester | IILM University, Greater Noida
